

This has got to be a violation of the law and is totally unbalanced!!!

Aren't the candidates allowed some sort of equal coverage? The media is out of control if they can put this on the air waves. I would not object if it was in a theater like (Fahrenheit 9/11), but definitely not on the public airwaves.

I am really becoming concerned about having a free election and not one that is being controlled by the state or the conservative media. In the past I have usually voted Republican, but not with this kind of heavy handed and disgraceful tactics.

If this is allowed to be aired I think the same broadcasting company should have to air Fahrenheit 9/11 in a similar time slot also without commercials.

Carolyn Jones (private citizen). Thank you.
